## AUTOGOJA™

Developed by Biddle Consulting Group, Inc.

### Online Job Analysis Software

*AutoGOJA helps employers collect the information necessary to defend their testing, selection, and compensation practices*

- Create custom job analysis surveys by typing your own task or KSA statements right into the system or import lists of tasks or KSAs from any popular word processing or spreadsheet software
- Easily complete linkages between knowledge, skill or abilities and the duties on the job
- Generate a selection matrix or exam plan automatically
- Generate summary reports that will document those job duties that are critical to job performance as well as the knowledge, skills, and abilities that are both critical and which are required at entry to the job
